Why Be So Careless

With a feeling of avoiding dirt,
Man makes daily changes of his shirt;
Spends an hour each morning in the tub;
Sends seven pairs of socks for weekly rub,
Yet seldom cleans a suit of clothes,
Until its stench assails his nose.

PEAT ON FIRE

MICHIGAN CITY, Ind., Oct. 10.
(UP)—Burning peat in area of 200
acres, known as the Bartlett subdivi-
sion, is worrying local firemen and
persons using the Dunes Highway.
At some points the fire has eaten its
way several feet below the ground.

A drainage ditch has been dammed
to obtain water supply for use by
firemen. A pumper has been placed
at the scene and a stream of water
is being played continually on the
smoldering earth.

Motorists on the highway near the
burning area find difficulty in pass-
ing as dense white smoke hangs over
the road.

QUARRY WORK GROWS

BEDFORD, Oct. 10 (UP)—Of 17-
330,690 cubic feet of limestone, val-
ued at \$18,820,045, produced in the
United States during 1927, more than
two-thirds came from the Bloom-
ington-Bedford district in Indiana, which
is said to be the largest quarry cen-
ter for building limestone in the
world.

These figures, taken from a bullet-
in issued in Washington, D. C., also
showed that the total production of
building stone (including limestone)
in the United States during the year
1927, was 32,104,200 cubic feet, four
percent less than in the previous
year.

The Bloomington-Bedford quarry
district reported sales from the quar-
ries of 13,572,950 cubic feet of the
limestone in 1927, valued at \$16,407,-
170, a decrease of four per cent from
1926.

Independent mills, not connected
with the quarries in this district, sold
728,000 cubic feet of sawed stone,
valued at \$704,732; 35,030 cubic feet
of semi-finished stone, valued at \$58,-
056 and 907,440 feet of cut stone,
valued at \$2,883,657.

DRUNKEN COUPLES FINED

CROWN POINT, Oct. 10. (UP)—
Two young Chicago couples who
staggered into the court house here
and demanded that Deputy Sheriff
Thomas Platt and Deputy Marshall
Joe Lump direct them to the city
clerk's office where they could be
united in marriage, were landed in
jail when "strong booze" was smelled
on the breath.

After they had sobered they were
released by Judge Kemp after being
fined a total of about \$155 and costs.

The deputy sheriff and deputy
marshall had a hard time trying to
convince the group that they must
go to jail for being in a hilarious
mood. One of the girls even opened
her purse and drew a gun. They were
finally hauled to the bastille, how-
ever.

LIMIT ON AUTO USE

BLOOMINGTON, Oct. 10. (UP)—
Only forty-three coeds at Indiana
University this year have been al-
lowed the privileges of driving autos.
These are girls who use the cars to
travel to and from school, whose
homes are in the county or in towns
near here.

In each case instructions were giv-
en regarding use of the car, and who
besides the driver should ride in it.
One violation of instructions will
bring cancellations of auto permits.

Many Farmers Are Skeptical Of Al Smith's Farm Knowledge

Former Farm Bureau President Contrasts Governor
Ignorance With Hoover's Understanding.

Farmers of the country are skeptical of the under-
standing and sympathies of a New York City-bred President
solution of their problems, O. E. Bradfute, of Xenia, O.,
president of the Ohio Farm Bureau federation, and the
American Farm Bureau federation, has advised Chairman
Work of the Republican National Committee.

It was Mr. Bradfute, a real "dirt" farmer, who issued

statement last summer stoutly
ing Hoover as the friend of the
er and dynamiting some of
columns then being circulated.
"I found Hoover a magnificent
seller on agricultural matters,"
clared Mr. Bradfute, referring to
association with the Secretary
Commerce while administering
American Farm Bureau federa-
here.

"Any farmer knows that a
York City man has little of the
ground or information necessary
an understanding of agricul-
problems," said Mr. Bradfute.
chief executive knows little or
ing himself, how can he tell
visers from the poor ones? The
ers aren't dumbbells."

The farm program outlined by
retary Hoover in his accep-
speech and since, men with the
proval of all thoughtful farmers.
Bradfute declared. His years
waterway development promises
duce transportation costs and
indicated, they believe, other
directions from which im-
provement may be secured.

WAS THAT LAST 5c CIGAR BITTER?

No More Experience Like That
If You Smoke This Ripe
Tobacco Cigar

No, they're not all alike. There
is a difference in five-cent cigars.
Many, we admit, are made from
"scraps," "cuttings," under-ripe top
leaves, over-ripe bottom leaves and
other low-grade tobacco material.
But there's one cigar, men, that's
way ahead of its price class: *Hav-
anna Ribbon*. And the reason is—
It's Ripe Tobacco! No bitterness;
no flatness; no short ends to crumble
in your mouth. But all long-riper,
fully-ripe middle leaves from choice
tobacco plants. Man, that does make
a smoke! Cool, sweet, mild, frag-
rant, flavorful—a cigar that makes
your nickel ring like it was a silver
dime!

Give *Havanna Ribbon* a chance.
You'll never stop wondering how
a cigar so good can be made for five
cents. Also sold in *Practical Pocket
Packages* of five cigars.

D. A. R. State Conference.
The twenty-eighth annual state
conference of the Daughters of the
American Revolution opened in Terre
Haute Tuesday evening. Speaking on
"Citizenship," the Rev. Louis N.
Rocca of Fort Wayne sounded the
keynote of the convention in an ad-
dress which opened the session.
"Educationally the D. A. R. is do-
ing yeoman service in enlightening
the public in its obligations and re-
sponsibilities," he said.

"Citizenship to you is a meaning-
ful word," continued the Rev. Mr.
Rocca. "One that entails a definite
responsibility to protect, to preserve
and respect the state, as well as the
reciprocal activity on the part of the
state to protect the life, liberty and
property of its citizenry."

Much interest is manifested at the
conference by the cause that one
member has announced herself a can-
didate for a national office, and it is
rumored that another member may
announce herself a candidate on the
opposing national ticket. It was ex-
pected that one of the candidates will
be endorsed at the conference today.

"Our Dancing Daughters," shows
two sides to this very modern ques-
tion.

And the answers supplied in this
Metro-Goldwyn-Mayne feature show that
if, indeed, youth is to be criticized, the
parents themselves are in no position
to voice the censure.

The theme in his modernistic pro-
duction which Harry Beaumont direct-
ed from an original story from the
pen of Josephine Lovett, is based upon
environment. Children, the plot
shows, usually reflect the circum-
stances of their home life.

Three very modern young women
provide the motivation for the swift-
moving film narrative, and in these
roles Joan Crawford, Dorothy Seba-
stian and Anita Page bring to the
screen splendid characterizations of
three types of flapperhood.

Johnny Mack Brown is the young
man whose affections and millions
occupy the attentions of Miss Craw-
ford and Miss Page in the filmization
of the ultra-modern story, and Nils
Asther, as Miss Sebastian's husband
gives a striking portrayal as the hus-
band who tries to forget his wife's
past indiscretions but cannot erase
suspicions from his mind.

The production has been filmed up-
on a lavish scale in keeping with its
modernistic motif, and was photo-
graphed with the newly-perfected in-
candescent lighting equipment, the
first time the new lights have ever
been used exclusively in any film.

In the stellar supporting cast of
this M-G-M triumph are Kathryn
Williams, Eddie Nugent, Dorothy
Cummings, Huntley Gordon, Evelyn
Hall and Sam DeGrasse.

ed the story of Edwin Justin Mayer
for the production which was directed

tangle has to do with nephew and
ward of an irascible old codger,
whose marriage plans, perarranged
by the i. o. e. himself, are disarranged
by the fact that each falls on love
with some one else. The hojige-podge
wedding is about to take place, when
nevy's new ady clothes with ward's
